# HERBST BROTHERS

FLOWER — VEGETABLE — LAWN GRASS — TREE & SHRUB SEED  
92 WARREN STREET • NEW YORK 7, N. Y.

LIBRARY  
RECEIVED  
★ MAY 29 1952 ★  
U. S. Department of Agriculture

This list cancels previous quotations. Prices are f.o.b. N. Y., packing extra. Terms to those who have established credit, net 10 days. SUBJECT TO CHANGE WITHOUT NOTICE.

Herbst Brothers warrants to the extent of the purchase price that seeds or bulbs sold are as described on the container, within recognized tolerances. Seller gives no other or further warranty, express or implied.

## FLOWER SEEDS

Our complete list of quality flower seeds, ready for immediate shipment, will be found on pages 4 to 12. If you have not received our prices for 1952 crop delivery as well as T. Sakata & Company's list of Reliable Seeds, please let us hear from you. Seedsmen packing consignment boxes find it advantageous to get started early. If you plan to do this, get in touch with us for our list of varieties we can supply early in the season.

### PANSY SEED

Pansy seed is shorter than generally known. Some of the popular separate colors are already sold out. Look over our listings on page 10, and order early to avoid disappointment. Our entire stock is new crop of high germination. We have no carried over seed.

### KUDZU VINE

#### *Pueraria thunbergiana*

A few hundred pounds are available for immediate shipment from New York, high germinating 1952 crop. The price is \$3.50 per lb., f.o.b. N. Y., subject to prior sale.

### 1952 CROP FLOWER SEED

To secure earliest possible delivery, the following varieties of flower seed which we produce in the east, should be ordered at once.

	Per Lb.
Hibiscus Gt. Fl. Mixed .....	\$ 5.20
Ricinus all varieties mixed .....	.55
Salvia splendens .....	17.00
America .....	21.00
Blaze of Fire .....	30.00
Bonfire .....	19.00
Firebrand .....	25.00
St. John's Fire .....	30.00
Zurich .....	21.00
Stokesia cyanea blue .....	20.00

### ZOYSIA JAPONICA

#### (Japanese Lawngrass)

May be planted from early spring through the hot summer into fall.

Retail price: \$6.00 per pound

Write for attractive dealer prices and descriptive leaflet.

# ZOYSIA JAPONICA

*(Japanese Lawn Grass)*

---

*Tough and Wear-Resistant*

*Immune to Diseases and Pests*

*Requires Only Occasional Mowing*

CROWDS OUT CRABGRASS

---

HERBST BROTHERS

92 WARREN ST. NEW YORK 7, N. Y.

# ZOYSIA JAPONICA SEED

---

## HISTORY:

*Zoysia japonica*, commonly known as Japanese Lawn Grass, was first introduced into the United States about 35 years ago from Korea where the climate approximates that of New York State.

Until this year, it was very difficult to obtain seed but we were fortunate in harvesting a crop this season. The United States Dept. of Agriculture has been testing this plant at its trial grounds at Beltsville, Md., for a number of years and considers it especially valuable for lawns, playgrounds and athletic fields.

## DESCRIPTION:

*Zoysia japonica* is a low growing, sod forming perennial which if not mowed, will grow to a height of about 9 inches. It has a broad, somewhat course leaf similar to Red Top, but does not grow as tall.

A slow grower in its early stages, *Zoysia japonica* will form a desirable, tough and cushiony sod within two years. There are approximately 1,300,000 seeds to the pound.

## ADAPTATION:

*Zoysia japonica* is the only variety of *Zoysia* which is hardy and will grow in the South as well as in the North. It will thrive on practically any type of soil. If given proper care it may well be considered the best of all shade-tolerant grasses.

It is generally believed that *Zoysia japonica* will be of great value for the following reasons:

- (1) Its ability to withstand heat, long periods of drought and extremely cold climates.
- (2) Its ability to crowd out Crabgrass as it is most dominant during the Crabgrass season.
- (3) Its ability to provide a green cover during the summer months when other grasses, such as Kentucky Blue, turn brown and ragged. It will also hold its color into the late fall longer than others.
- (4) Its ability to withstand heavy traffic and its extraordinary healing qualities.
- (5) The fact that it is disease free and weed free. So far none of the known pests have attacked it. It is immune to Chinch Bugs.
- (6) Unlike its cousin Flawn, *Zoysia japonica* forms a loosely knit sod and in its early stages blends and lives in harmony with other grasses, especially Blue Grass.

## CULTURE:

We recommend using one pound of seed for every 450 sq. ft. of lawn area.

*Zoysia japonica* does not require extensive fertilizing because of its ability to thrive under all conditions. It is best to fertilize *Zoysia* during the fall, as that is the time most weeds are inactive. Do not top-dress.

*Zoysia japonica* has one weakness—it is slow to germinate. It has, however, so many advantages in its favor, that it is well worth the extra preparation we recommend below. Once this grass is established you will have a truly remarkable perennial lawn.

We suggest that in order to reduce the normal germination period to 14 days, you follow these simple instructions:

Mix seed with at least ten times the amount of dry, clean sand or Vermiculite.

Place in a flat, shallow pan so that the mixture is not over one inch deep. Soak but do not flood. Keep moist continually, wet down thoroughly at least once each day and stir once or twice daily.

Keep out in the hot sun. Leave it outdoors night and day for two weeks. By this time the seed will begin to crack and is ready for planting.

Sow seed and sand mixture, rake in lightly and roll. Keep moist same as you would with any other lawn seed.

If seed is planted during the hot weather season when the soil is warm, the pre-germination period may be reduced to three days.

## USES:

*Zoysia japonica* is an extremely hardy perennial. It is persistent and will thrive in any kind of soil. While it will make as beautiful a lawn for the home as the more common grasses, its greatest value is for airports, athletic fields and playgrounds, cemeteries and golf courses, where a coarse and yet smooth turf is needed to withstand wear and tear of traffic.

The load-bearing capacity of *Zoysia* is unparalleled by other grasses. Areas planted with this grass and driven over by a truck at a time when the soil was wet, barely showed the track on well-established sod.

The fact that this grass grows very slowly, and only to a height of 9 inches, also makes it of outstanding value for all large areas. It requires mowing only a few times all season.

*Zoysia japonica* in its early stages is quite tolerant of other grasses. Later on, however, it will gradually spread and choke off all other grasses as well as weeds, so that eventually you will have a pure *Zoysia* turf.
